FEPA Recognition for NORDIA 2026

The Federation of European Philatelic Associations (FEPA) has granted a FEPA Recognition for the Nordic NORDIA 2026 exhibition, which will take place from May 8th to 10th in Espoo, Finland. This status brings visibility to the exhibition across Europe and the whole world through FEPA's communication channels. The exhibition has the right to use the FEPA logo in its own marketing and communications.

The first news by FEPA is already available here: https://fepanews.com/nordia-2026-in-espoo-finland/

The status of NORDIA 2026 is of a Nordic exhibition. Entitled to participate are members of the National Philatelic Federations and Youth Philatelic Federations of the Nordic Countries and Estonia, as well as members of the philatelic societies for Scandinavia collectors in Germany, the Netherlands, United Kingdom and the United States.

The number of frames available for each exhibit can be freely selected between 1 to 3 or 5 to 8 frames, while in the Championship Class the number of frames should be 5 to 8.

The IREX of NORDIA 2026 will be published and registration opens during the summer. The exhibition is for exhibits which have achieved a result of at least 70 points on national level.

A result of 75 points achieved in a National or a Nordic show, on the other hand, opens the right to participate next time in FEPA and FIP exhibitions with a maximum of five frames.
